

## **Station Guidelines for Containing the Mess**

1. DO NOT throw, spray, or wipe anything on anybody.
2. Keep shaving cream, gel, and toothpaste on the trays.
3. It is OK to put the sand and *Glook* on the table, but keep them off the floor.
4. Use the broom and dustpan to clean up any spills at the sand stations.
5. At the toothpaste station, take one toothpick to pick up and examine a small amount of toothpaste. Put the toothpick in the trash container when finished.
6. At the shaving cream station, use only your pointer finger to pick up a small amount of shaving cream.
7. Wash and dry your hands after exploring the toothpaste or shaving cream.
